INTRODUCTION

The Illinois Register is the official state document for publishing public notice of rulemaking activity by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. Rulemaking activity consists of proposed or adopted new rules or amendments to or repealers of existing rules, including those by emergency or peremptory action.

The *Register* also contains Executive Orders and Proclamations issued by the Governor, notices of public information required by State statute, and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies. In addition, the *Register* contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred in the current *Register* volume and a Sections Affected Index listing, by Title of the *Illinois Administrative Code*, each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume. Both indices are action coded and are designed to aid the public in monitoring rules.

The *Register* will serve as the update to the *Illinois Administrative Code*, a compilation of the rules of State agencies. The most recent edition of the *Code* along with the *Register* comprise the most current accounting of the State agencies' rules.

The *Illinois Register* is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act (Ill. Rev. Stat. 1989, ch. 127, pars. 1001 et seq., as amended).

SUBPART K: ORDER AND DECISION OF THE COMMISSION

Section 5300.1145 Interest

Whenever an Order and Decision includes an award of interest pursuant to Section 8-108(J) of the Act, the amount of interest shall be calculated according to the method set forth in this Section.

a) Liability for interest begins on the first day of the calendar month following the civil rights violation. Interest shall accrue on a monthly basis thereafter. For example, if the violation occurred on June 15, liability for interest would begin on July 1, and the first month's interest would accrue on August 1.

b) The monthly rate of interest shall be 1/12 of the annual rate of interest for judgments specified in Section 2-1303 of the Code of Civil Procedure (Ill.Rev.Stat.1989, ch. 110, par. 2-1303) for the calendar year in which interest accrues.

c) The monthly rate of interest shall be multiplied by the amount of damages which accrued as of the end of the amount of damages which accrued as of the end of the last day of the month preceding the accrual of interest. For example, to calculate the amount of interest which accrues on August 1, one must multiply the monthly rate of interest by the amount of damages which accrued as of midnight on July 31.

d) Interest shall compound annually. For example, if the first month's interest accrued on August 1, 1988, the amount of monthly interest for August 1, 1989 would be calculated by adding the damages and interest which accrued as of July 31, 1989. This sum would then be multiplied by the applicable monthly rate.

- 5) A complete description of the Subjects and Issues Involved:

- 1650.180 Amends from two to four the number of days after a privately metered postmark date that employer reports are considered timely received by the System. Amends punctuation.

- 1650.210 Provides method and effective date for transfers from disability retirement to age retirement. Provides for reinstatement to disability retirement if attempted resumption of teaching fails based on recurrence of same disability within 90 days. The transfer to age retirement and the availability of reinstatement of benefits based on recurrence were previously not available to recipients of a disability retirement annuity. Changes conform to statutory revisions.

- 1650.230 Defines with particularity the term "gainfully employed" as used in the rule governing medical examinations and investigations of claims for disability benefits.

TEACHERS' RETIREMENT SYSTEM OF THE STATE OF ILLINOIS

NOTICE OF PROPOSED AMENDMENTS

- 650.270 Clarifies rule governing naming the recipient of a reversionary annuity, to conform to language used on applications. By deleting the word "parent" from the rule, dependent parents are grouped with other non-offspring dependents.
- 1650.320 Provides that the correct calculation of service credit for partial years uses a 170-day denominator for all members. Change conforms to statutory revision. Provides method for calculating days worked based on hours worked, if record of days unavailable.
- 1650.325 Clarifies method for calculating service credit while on disability leave.
- 1650.410 Provides that refunds are available for any paid-for optional service (as opposed to solely out-of-system service) in a member's record, when the service cannot be used for pension credit because it is duplicate or noncreditable due to statutory limitations on optional service credit.
- 1650.440 Provides that the amount of the annuity check will not be changed if a recalculation based on minor auditing adjustments results in increase or decrease of under \$1.00 per month.
- 1650.450 Amends salary rule to make standards of determination more precise. For example, specifies that no salary item will be recognized for credit if such recognition would exceed or violate IRS qualified plan limits; provides that flexible benefit plans are reportable if available to all teachers on a nondiscriminatory basis; clarifies language of rule prohibiting late-career conversions; makes clear that school district "options" do not make creditable any items such as expense reimbursements that are not otherwise creditable with the System.

NOTICE OF PROPOSED AMENDMENTS

Section 1650.180 Filing Requirements - Penalty Provisions

- a) All employers are required to forward member contributions to the System after the close of each pay period or monthly, if a State Institution, and to file an annual report of earnings with the System on or before August 15 of each year. Failure to forward contributions or to file reports shall result in penalties prescribed by Section 16-155 of the Illinois Pension Code: (The Act.)
- b) (Ill. Rev. Stat. 1987, ch. 108 1/2, par. 16-155). Effective July 1, 1988, in administering the penalty for late filing of the employer's annual report of earnings prescribed by Section 16-155(c) of the Act, the postmark date is deemed to be the date of receipt. If the postmark is made other than by the U.S. Post Office, such as a postage meter, the postmark must show a date on or before the date the material was to be received in an office of the System and must be received no later than two four days after the date shown.
- c) Envelopes must be properly addressed to the System if the reports are to be considered filed timely, with correct postage paid by the employer.

SUBPART C: FILING OF CLAIMS

Section 1650.210 Claim Applications

- a) Any individual claiming a retirement annuity, a disability retirement annuity, a survivor benefit, a disability benefit or an occupational disability benefit shall file an application therefor in the form prescribed by the System. This application, together with the membership record, and such other information as may have been compiled during the membership of the member or submitted by the applicant shall constitute the complete record forming the basis of the claim. An application for survivor benefits shall be accompanied by a certified copy of the death certificate, other public record of death, or a physician's certificate. The applicant for a survivor benefit shall furnish proof of heirship, such as a court order or an affidavit of heirship.
- b) When 90 or more days have elapsed subsequent to the commencement of a member's disability, oral or written notification of the disability shall be deemed sufficient to commence accrual of

benefits. Provided, however, if the System fails to receive the documentation required by Section 16-149 or Section 16-149.1 of the Act within six months of the initial notification no benefits will accrue until that documentation is received by the System.

c) Disability benefits become payable the later of:

- 1) The 31st calendar day after commencement of absence due to disability;
 - 2) Upon exhaustion of the member's sick leave or (if sick leave not paid by employer) when the sick leave would have been exhausted had the member been paid; or
 - 3) The date the System receives notification of disability if more than 90 days after commencement.
- d) When an individual claiming disability benefits is employed under an agreement for less than 12 full months, neither the 31-day waiting period nor the utilization of sick leave requirement, as contained in subsection (c), is satisfied during periods not covered by the agreement. For purposes of granting disability benefits it will be presumed that all employment agreements cover one full school term and are automatically renewable at the commencement of the next school term. Satisfactory evidence must be presented of an employment agreement covering a longer period than a full school term (e.g., 10, 11 or 12 months). Satisfactory evidence will consist of a written statement from the employer.

e) Occupational disability benefits become payable the later of:

- 1) The date the System receives notification of disability if more than 90 days after commencement; or
 - 2) Upon the exhaustion of the member's sick leave or when the sick leave would have been exhausted had the member been paid.
- f) When an individual claiming occupational disability benefits is employed under an agreement for less than 12 full months, the utilization of sick leave requirement in subsection (e) is not satisfied during periods not covered by the agreement. The same presumptions and evidentiary requirements regarding the terms of the employment agreement will be applied under this subsection (f) as under subsection (d) above.

g) Receipt by the System of an application for a retirement annuity and any outstanding payments terminates membership in the System. The death of an applicant is deemed death-out-of service when calculating survivor benefits.

TEACHERS' RETIREMENT SYSTEM OF THE STATE OF ILLINOIS

NOTICE OF PROPOSED AMENDMENTS

- h) A member may request, in writing, a transfer from a disability benefit to a disability retirement annuity prior to the expiration of the eligible period for disability benefits. The effective date of the disability retirement annuity shall be the first of the month following receipt of the request. A member receiving a disability retirement annuity may, any time after becoming eligible for age retirement, request in writing a transfer to an age retirement annuity. The effective date of the age retirement annuity will be the first day of the month following receipt of the written request for such transfer.

- i) Whenever a member resumes teaching after receipt of a disability benefit, disability retirement annuity or occupational disability benefit but is subsequently disabled for the same cause within 90 days, benefits shall be reinstated at the previous rate upon written application. Benefits will commence the day following the last day the member is paid by his or her employer.

Section 1650.230 Medical Examinations and Investigations of Claims

- a) Each member seeking a disability benefit, occupational disability benefit, or a disability retirement annuity shall provide the System with written reports by two or more licensed and practicing physicians certifying that the member is disabled and unable to properly perform the duties of his or her position. Provided, however, in the case of disability due to pregnancy, the member shall provide the System with a written report by one licensed and practicing physician certifying that she is disabled and unable to perform the duties of her position.
- b) In order to substantiate the member's or the annuitant's continued eligibility for disability benefits, occupational disability benefit, or a disability retirement annuity, the System shall require that the member or annuitant submit to additional medical examinations and shall request hospital records; Department of Employment Security earning statements; Social Security benefit payment information; income tax records; and other pertinent information, under the following circumstances:
- 1) There is disagreement among examining physicians;

- 2) The medical examinations were inadequate to substantiate continued disability. A medical examination is considered inadequate when:
 - A) a report is incomplete; or
 - B) a report was not completed within the last three months; or
 - C) the duration of disability is shorter than the period between the date of the medical examination and the date of the submittal of the report.
- 3) There is evidence an impartial medical examination was not performed. An impartial medical exam is not performed when the physician is:
 - A) related to the teacher; or
 - B) a friend of the teacher.
- 4) There is a reasonable basis to believe the member is no longer disabled. A reasonable basis exists when:
 - A) the System receives statements by third parties that the teacher was engaged in activities which would be prohibited by his or her stated disability; or
 - B) the System receives inquiries by teachers receiving a disability benefit, disability retirement annuity or occupational disability benefit regarding the work which they may perform.
- 5) The member is found to be gainfully employed. The term "gainfully employed" shall be construed to mean:
 - A) any compensation which exceeds \$500 in any month for personal services, including fees, wages, salary, commissions, and similar items;
 - B) any income which exceeds \$500 in any month derived from the participation in a business activity through the performance of physical and/or mental activities generally performed for the production of income; and
 - C) shall be computed on a gross rather than net basis (i.e. no deduction of any kind including but not limited to deductions for losses, expenses, taxes or withholding will be considered in such computation).
- c) Members or annuitants in receipt of a disability benefit or occupational disability benefit shall be requested to submit to medical examinations at least once each year. When a disability benefit terminates, and a member requests retirement on a disability retirement annuity, the member shall submit to a medical examination, unless the member was examined within the preceding six months, in which case no new medical examinations are required.

- d) The System retains the right to require members or annuitants to submit to medical examinations by physicians selected by the System, at its own expense. These examinations may be in addition to the written reports tendered by the member or the annuitant. Such examinations shall be required when prior medical examinations were inadequate, when there is a question regarding the independence of the physician or when the forms are not completed properly.
- e) Failure of a member or an annuitant to submit to medical examination, or to provide the information required pursuant to Sections 16-149 through 16-149.2 of the Act shall result in suspension of payments.
- f) The term "licensed physician" means any individual licensed by the State in which they practice as a medical doctor. All licensed physicians shall be requested to submit their registration number on all reports submitted to the System.

Section 1650.270 Evidence of Dependency

For the purposes of the reversionary annuity provided in Article 16-136 of the Illinois-Pension-Code Act, the term "dependent" shall include a spouse, an unmarried or adopted child under age 18; or an unmarried child of any age who has been adjudged disabled pursuant to Article Xla of the Probate Act of 1975 except an such child receiving benefits under Article III of the Illinois Public Aid Code or parent of the retiring member, if designated by the retiring member, without further proof of dependency. If any individual other than a spouse; or dependent child or parent is designated by the retiring member, the retiring member must furnish the System with evidence that the retiring member provided over 50% of the support of the designated individual during the 12 calendar months immediately preceding retirement. A copy of the member's federal income tax return filed for the year claiming the person as a dependent, shall be accepted as evidence of dependency.

Section 1650.320 Method of Calculating Service Credits

- a) No more than one year's service credit shall be granted for total service rendered between July 1 of one year through June 30 of the following year.

TEACHERS' RETIREMENT SYSTEM OF THE STATE OF ILLINOIS

NOTICE OF PROPOSED AMENDMENTS

- b) If the service rendered on a full-time basis, substitute basis, or part-time basis after June 30, 1990 (except permanent and continuous part-time basis prior to July 1, 1990) is less than 170 days between July 1 of one year through June 30 of the following year, then credit for service shall be at a ratio of the actual number of days of service to 170 days the number of days in the legal school term or the member's employment agreement, whichever is greater.
- c) Service credit for service rendered on a permanent and continuous part-time basis prior to July 1, 1990, between July 1 of one year through June 30 of the following year, shall be at the ratio of creditable earnings to the annual salary rate. Provided, however, that for service after June 30, 1959, if such ratio equals or exceeds the ratio of 170 days to the days in the legal school term, one year of service credit shall be granted.
- d) If service prior to July 1, 1990 is rendered partially on a full-time basis and partially on a permanent and continuous part-time basis between July 1 of one year through June 30 of the following year, then credit for service shall be at the ratio of creditable earnings to the annual salary rate. Provided, however, that for service after June 30, 1959, if such ratio equals or exceeds the ratio of 170 days to the days in the legal school term, one year of service credit shall be granted.
- e) Whenever the actual number of days of service is unavailable because of lack of employer records, the number of days the system uses to grant service credit shall be equal to the actual number of hours for which the member was paid, divided by four.

Section 1650.325 Method of Calculating Service Credit for Recipients of a Disability Benefits or Occupational Disability Benefit

- a) Service credit is earned during periods in which disability benefits are paid.
- b) Service credit is earned during periods of occupational disability.
- c) When a member teaches a partial school year and receives disability or occupational disability benefits a partial school year, one full year of service credit is earned when the member receives earnings from teaching and disability or occupational disability benefits for a total of 170 days during the school term or the term of the employment agreement if longer.

TEACHERS' RETIREMENT SYSTEM OF THE STATE OF ILLINOIS

NOTICE OF PROPOSED AMENDMENTS

- d) When a member's disability or occupational disability occurs in one school year and the disability or occupational disability benefit becomes payable the following school year, one full year of service credit is earned when the member receives earnings from disability or occupational disability benefits for a total of 170 days during the school term (or the term of the employment agreement if longer) with the last employer prior to the commencement of disability or occupational disability benefits.

SUBPART E: CONTRIBUTION CREDITS AND PAYMENTS

Section 1650.410 Refunds for Duplicate Service

- a) In the event contributions to the System are made in error for service covered by another public employee pension system in Illinois, a refund of such contributions shall be made.
- b) If a member contributes to the System for out-of-system optional teaching service, but is unable to claim all of this service at the date of retirement, then a refund of contributions for such excess out-of-system service shall be paid to the member. Regular interest as defined in Section 16-112 of the Act shall be paid for the period from the date of complete payment of contributions for out-of-system optional teaching service to the end of the month preceding application for benefits in which the refund is processed.

NOTICE OF PROPOSED AMENDMENTS

NOTICE OF PROPOSED AMENDMENTS

TEACHERS' RETIREMENT SYSTEM OF THE STATE OF ILLINOIS

Section 1650.450 Definition of Salary

a) Any recognized emolument of value recognized by the System that is received, actually or constructively, by a member in consideration for services rendered as a teacher, within all applicable limits and restrictions on qualified pension plans contained in the Internal Revenue Code, 26 U.S.C., at §401(a) et seq. Subsection (b) of this Section lists the more common elements of compensation that are recognized by the System as "salary," for purposes of illustration. For further illustration, subsection (c) mentions several examples of items not recognized by the System as "salary." However, "salary" within the meaning of Section 16-121 of the Act is not limited to the items so enumerated.

b) Examples of salary amounts to be reported to the System include:

- 1) The gross amount of wages or compensation earned or accruing to the member during the legal school term or the length of his or her employment agreement, whichever is greater, in a function requiring certification as a teacher, and payable by the employer at termination of service; up-to-the-limit-that-can-be-taken-into-account under Section 415 of the Internal Revenue Code's (26-U.S.C.-415)-limitations-on-qualified-pension-plans;
- 2) Wages or compensation for overtime or extra service;
- 3) The amount payable, exclusive of court costs, attorney's fees and punitive damages, as a result of a settlement or judgment obtained due to a disputed dismissal, suspension or demotion; provided that the salary amount reported to the System under this subsection shall be equal to that which the member would have earned had the dispute not occurred.
- 4) Severance pay e.g., retirement incentives, lump sum bonuses, payments for unused vacation and sick days) received by member or becoming due and payable to member prior to or concurrent with receipt of final paycheck for regular earnings;
- 5) Contributions made by or on behalf of the member to deferred compensation plans, salary reduction plans or tax sheltered annuities; and
- 6) Amounts that would otherwise qualify as salary and wages under (b)(1) through (b)(5) of this subsection but are not received directly by the member because they are used to finance benefit options in a flexible benefit plan;:

provided, however, that to be reportable, a flexible benefit plan must be available to all teachers on a non-discriminatory basis.

- c) Examples of amounts not to be reported to the System include:
 - 1) Any severance payment (e.g., retirement incentives, lump sum bonuses, payments for unused vacation and sick days) becoming due and payable to member subsequent to receipt of final paycheck for regular earnings;
 - 2) Any lump sum payment made after the death of the member;
 - 3) Expense reimbursements, expense allowances, or fringe benefits unless included in a reportable flexible benefit plan;
 - 4) Any monies received by the member under the Workers' Compensation Act or the Workers' Occupational Diseases Act;
 - 5) Any amount paid by an employer in lieu of previously nonreportable earnings or benefits or reported in lieu of previously non-reported compensation which are converted-to reportable earnings where the conversion occurs in the last years of service-for-the-purpose-of-increasing and one of the purposes is to increase a member's average salary. If the member's non-creditable or non-reported compensation in any of the last seven creditable school years of employment exceeds that of any other subsequent year, the System will presume the difference, unless resulting from the terms of a collective bargaining agreement, to have been converted into salary and wages in the subsequent year for the purpose of increasing final average salary. To overcome the presumption, the member must submit documentary evidence to the System which clearly and convincingly proves that none of the purposes of the change in compensation structure was not to increase average salary (for example, collectively bargained agreements, change of employer, change in family status); and
 - 6) Any amount paid by an employer as the employer's one-time contribution (or on behalf of the employee as the employee's one-time contribution) required by the System as part of the statutory early retirement option in Section 16-133.2 of the Act; and
 - 7) Options to take salary in lieu of employment-related expense allowances or reimbursements.

Where appropriate, schedules and appendices are provided with notes concerning conversion factors. The inclusion of the SI equivalent is for informational purposes only.

a) absorbed dose - The unit of absorbed dose is the gray (Gy), which is equal to 1 joule per kilogram. One rad is equal to 1×10^{-2} gray. Sub-multiples included in this document are the milligray (mGy) and microgray (μ Gy).

b) dose equivalent - The unit of dose equivalent is the sievert (Sv) which is equal to 1 joule per kilogram. One rem is equal to 1×10^{-2} sievert. Sub-multiples included in this document are the millisievert (mSv) and the microsievert (μ Sv).

- c) exposure - The unit of exposure is the coulomb per kilogram (C/kg). One roentgen is equal to 2.58×10^{-4} coulomb per kilogram. Sub-multiples of this unit are the millicoulomb per kilogram (mC/kg) and the microcoulomb per kilogram ($\mu\text{C/kg}$).

SUBPART C: SPECIFIC LICENSES

Section 330.240 Filing Application for Specific Licenses

- a) Applications for specific licenses shall be filed in duplicate on forms prescribed by the Department.
- b) The Department may at any time after the filing of the original application, and before the expiration of the license, require further statements in order to enable the Department to determine whether the application should be granted or denied or whether an existing license should be modified or revoked.
- c) Each application shall be signed by the applicant or licensee or a person duly authorized to act for and on his behalf.
- d) An application may include a request for a license authorizing one or more activities. The Department will not grant the request if the proposed activities are not under the control of the same facility, administrator, and radiation safety officer. In addition, when evaluating the request, the Department will consider complexity, similarity, and proximity of the proposed activities.
- e) In the application, the applicant may incorporate by reference information contained in previous applications, statements, or reports filed with the Department provided such references are clear and specific.
- f) Public inspection of applications and other documents submitted to the Department pursuant to this Section shall be in accordance with 2 Ill. Adm. Code 1076 and the requirements of the Freedom of Information Act (Ill. Rev. Stat. 1985 1989, ch. 116, par. 201 et seq.).
- g) An application for a specific license to authorize receipt, possession, or use of radioactive material in the form of a sealed source or in a device that contains a sealed source must either:
 - 1) Identify the sealed source or device that contains a sealed source by manufacturer and model number as filed in an evaluation sheet in the U.S. Department of Health and Human Services "Radioactive Material Reference Manual" or in the U.S. Nuclear Regulatory Commission "Registry of Radioactive Sealed Sources and Devices"; or

Section 330.250 General Requirements for the Issuance of Specific Licenses

- a) A license application will be approved only if the Department determines that:
 - 1) The applicant is qualified by reason of training and experience to use the material in question for the purpose requested in accordance with this Part in such a manner as to minimize danger to public health and safety or property;
 - 2) The applicant's proposed equipment, facilities, and procedures are adequate to minimize danger to public health and safety or property;
 - 3) The issuance of the license will not be inimical to the health and safety of the public; and
 - 4) The applicant satisfies any applicable special requirements in Sections 330.260, 330.270, or 330.280.
- b) Environmental Report, Commencement of Construction.
 - 1) In the case of an application for a license to receive and possess radioactive material for commercial waste disposal by land burial, or for the conduct of any other activity which the Department determines will significantly affect the quality of the environment, a license application must be reviewed and approved by the Department before commencement of construction of the plant or facility in which the activity will be conducted. Issuance of the license shall be based upon a consideration by the Department of the environmental, economic, technical and other benefits in comparison with the environmental costs and available alternatives, and a determination that the action called for is the issuance of the proposed license, with any appropriate conditions to protect environmental values;
 - 2) Commencement of construction prior to such conclusion shall be grounds for denial of a license to receive and possess radioactive material in such plant or facility. As used in this paragraph the term "commencement of construction" means

any clearing of land, excavation, or other substantial action that would adversely affect the environment of a site. The term does not mean site exploration, necessary borings to determine foundation conditions, or other preconstruction monitoring or testing to establish background information related to the suitability of the site or the protection of environmental values; and.

- c) Financial Surety Arrangements for Reclaiming Sites. Reclamation for purposes of this subsection, "reclaiming" shall mean returning property to a condition or state such that the property no longer presents a public health or safety hazard or threat to the environment.

- 1) ~~Insurance~~ Unless exempted by subsection (c)(4) or (c)(5), issuance or amendment of a license shall be dependent upon satisfactory evidence of financial surety arrangements to ensure the protection of the public health and safety in the event of abandonment, default, or other inability of the licensee to meet the requirements of the Act, and this Part, 32 Ill. Adm. Code: Chapter II, Subparts b and d. Self insurance, or any arrangement which essentially constitutes self insurance, will not satisfy the surety requirements since such arrangement provides no further assurance than being without insurance. Pursuant to Section 6(a)(5) of the Radiation Protection Act (Ill. Rev. Stat. 1985, ch. 111, par. 216(a)(5)), and as otherwise provided, financial surety arrangements for site reclamation may consist of surety bonds, cash deposits, certificates of deposit, deposits of government securities, letters or lines of credit, or any combination of the above for the categories of licensees listed in Section 330.250(c)(4). Determination of satisfactory surety arrangements shall be subject to the following conditions:

- A) Financial surety arrangements for site reclamation may consist of surety bonds, certificates of deposit, deposits of government securities, letters of credit, insurance policies, or any combination of the above for the categories of licenses listed in subsection (c)(3). The amount of funds to be ensured by such surety arrangements shall be based on Department-approved reclaiming cost estimates for disposal of all radioactive material authorized under the license, including removal of all radioactive contamination caused by authorized material to a level in

conformance with 32 Ill. Adm. Code 340. Appendix C. The Department shall consider the following in approving the cost estimate of the financial surety requirements for each individual applicant or licensee:

- i) The probable extent of contamination through the use or possession of radioactive material at the facility or site and the probable cost of removal of such contamination to a level in conformance with 32 Ill. Adm. Code 340. Appendix C. This consideration shall encompass probable contaminating events associated with licensee's methods or modes of operation and shall be based on factors such as quantities, half-lives, radiation hazards and toxicities, and chemical and physical forms;
- ii) The extent of possible off-site property damage caused by operation of the facility or site;
- iii) The cost of removal and disposal of sources of radiation, which are or would be generated, stored, processed, or otherwise present at the licensed facility or site; and
- iv) The costs involved in reclaiming the property on which the facility or site is located, and all other properties contaminated by radioactive material authorized under the license.
- B) Self insurance, or any arrangement which essentially constitutes self insurance, will not satisfy the surety requirement since this provides no further assurance than being without insurance; The financial surety arrangements shall be filed with and maintained by the Chief, Division of Radioactive Materials of the Department (hereafter referred to as the Division Chief) in a dollar amount greater than or equal to the amount approved by the Department and determined necessary to provide for the protection of public health and safety in accordance with subsection (c)(1)(A).
- i) A licensee or applicant shall submit a cost estimate for approval by the Department in

DEPARTMENT OF NUCLEAR SAFETY
NOTICE OF ADOPTED AMENDMENTS

accordance with subsection (c)(1)(A).

- iii) The licensee's surety arrangements may be reviewed annually by the Department and be adjusted to recognize any increases or decreases resulting from inflation or deflation, changes in engineering plans, activities performed and any other condition affecting costs for reclaiming to ensure that sufficient surety is retained to cover liability which remains until license termination.
- iiii) When a change in activities not requiring a license amendment would raise the cost estimate for reclaiming to an amount greater than the amount of financial surety currently filed with the Division Chief, the licensee shall, within sixty (60) days after the increase, file additional financial surety at least equal to this increase.
- iv) When a license amendment would raise the cost estimate for reclaiming to an amount greater than the amount of financial surety currently filed with the Division Chief, the amendment shall not be issued until the required surety arrangements are established.
- v) When the current reclaiming cost estimate decreases, upon the written request of the licensee, and provided that the decrease is verified by the Division Chief, the Division Chief shall reduce the amount of financial surety required for the facility to the amount of the current reclaiming cost estimate. Upon such occurrence, the Division Chief shall, considering the financial surety arrangements on file, either cause to be released to the licensee collateral which has been deposited equal to this reduction or allow the licensee to substitute for the arrangements on file new arrangements in the reduced amount.
- vi) The term of the surety arrangement shall be for the period from issuance of the license until termination of the license by the Department in

DEPARTMENT OF NUCLEAR SAFETY
NOTICE OF ADOPTED AMENDMENTS

accordance with Section 330.320.

- vii) Upon termination of the license, the Division Chief will release all surety amounts not previously forfeited by the licensee.
- C) The Director:
- i) May order that any financial surety filed by a licensee pursuant to subsection (c) be forfeited to the State if the Director determines that the licensee has failed to perform reclaiming to assure health and safety from radiation hazards and comply with other license requirements or orders pertaining to reclaiming. Such forfeiture action shall follow the procedures provided in 32 Ill. Adm. Code 200.
- ii) Shall, upon the date of issuance of the final order described in subsection (c)(1)(C)(i), notify the Attorney General who shall collect the forfeiture if voluntary payment is not made within thirty (30) days of the date of issuance of the final order.
- iii) Shall deposit all funds from forfeited financial sureties in a temporary, locally-held trust fund to be administered by the Department for site reclaiming.
- D) The licensee or applicant must choose from the financial surety arrangements specified in Appendix G of this Part.
- E) The wording of the financial surety may be identical to the wording of the corresponding arrangement in Appendix H of this Part and must contain provisions described in Appendix G of this Part.
- F) Use of Multiple Financial Surety Arrangements. The licensee or applicant may utilize more than one financial surety arrangement per facility to satisfy the requirement specified in subsection (c)(1). These arrangements are limited to bonds supported by letters of credit, insurance and securities. The arrangement must be as specified in Appendix G of this Part.

except that it is the combination of arrangements, rather than the single arrangement, which must provide financial surety for the necessary amount.

G)

Use of Financial Surety Arrangement for Multiple Facilities and/or Multiple Licensees at a Facility. The licensee or applicant may use a financial surety arrangement specified in Appendix G of this Part to meet the requirements of subsection (c)(1) for more than one licensee he holds, or more than one facility he owns, or operates in Illinois. The arrangement submitted to the Division Chief shall include a list indicating, for each facility, the license number(s), name(s), address(es) and amount(s) of funds for reclaiming assured by the arrangement. The amount of funds available through the arrangement shall not be less than the sum of the sureties that would be available if a separate arrangement had been filed and maintained for each license or facility. If more than one license exists for a facility, the amount of funds for each license shall be specified.

H)

Substitution of Alternate Financial Surety Arrangements. The licensee may substitute alternate financial surety arrangements specified in Appendix G of this Part meeting the requirements of subsection (c)(1) for the financial surety already filed with the Department for the facility. ~~emergency, the licensee may, upon application to the Department, obtain permission to proceed sooner.~~ Upon receipt from the out-of-state licensee of a written request by the out-of-state licensee which contains a schedule of activities to be conducted within Illinois, the Department will waive the requirements for filing additional written notifications during the remainder of the calendar year following the receipt of the initial notification from a person engaging in activities under the general license provided in Section 330.900 subsection (a)(1);

C) ~~§~~The out-of-state licensee complies with all applicable regulations of the Department 32 Ill. Adm. Code: Chapter II and with all the terms and conditions of the licensing document, except any such terms and conditions which may be inconsistent with applicable regulations of the Department 32 Ill. Adm. Code: Chapter II;

D) ~~§~~The out-of-state licensee supplies any other information necessary to show compliance with the Department's rules 32 Ill. Adm. Code: Chapter II; and

E) ~~§~~The out-of-state licensee shall not transfer or dispose of radioactive material possessed or used under the general license provided in Section 330.900 subsection (b)(1) except by transfer to a person:

- i) ~~§~~Specifically licensed by the Department or by another Licensing State to receive such material, or
- ii) ~~§~~Exempt from the requirements for a license for such material under Section 330.40.

2) ~~Notwithstanding the provisions of Section 330.900 subsection (b)(1), any person who holds a specific license issued by a Licensing State authorizing the holder to manufacture, transfer, install, or service a device described in Section 330.220(db)(1) within areas subject to the jurisdiction of the licensing body is hereby granted a general license to install, transfer, demonstrate, or service such a device in this State provided that:~~

A) ~~§~~Such person shall file a report with the Department

within thirty (30) days after the end of each calendar quarter in which any device is transferred to or installed in this State. Each such report shall identify each general licensee to whom such device is transferred, by name and address, the type of device transferred, and the quantity and type of radioactive material contained in the device;

- B) ~~¶~~The device has been manufactured, labeled, installed, and serviced in accordance with applicable provisions of the specific license issued to such person by a Licensing State;
- C) ~~§~~Such person shall assure that any labels required to be affixed to the device under regulations of the authority which licensed manufacture of the device bear a statement that "Removal of this label is prohibited"; and
- D) ~~¶~~The holder of the specific license shall furnish to each general licensee to whom he transfers such device or on whose premises he installs such a copy of the general license contained in Section 330.220(db) or in equivalent regulations of the agency having jurisdiction over the manufacture and distribution of the device.

- 3) ~~¶~~The Department may withdraw, limit, or qualify its acceptance of any specific license or equivalent licensing document issued by a Licensing State, or any product distributed pursuant to such licensing document, if the Department determines that had the out-of-state licensee been licensed by Illinois, the licensee's license would have been subject to action under Section 330.500 or 32 Ill. Adm. Code 310.90.

NOTE:-

For purposes of Section 330-250(f)(5)(B) where there is involved a combination of isotopes, the limit for the combination should be derived as follows:-

Determine the amount of each isotope possessed and 1,330 times the amount in Appendix B for each of those isotopes when not in combination. The sum of the ratios of those quantities may not exceed 1.

EXAMPLE:-

Amt. of Isotope A possessed _____ Amt. of Isotope B possessed _____ is lesser than or equal to 1330 x Appendix B quantity for Isotope A _____ quantity for Isotope B _____ equal to 1

NOTE 2 I:

To convert microcuries (uCi) to SI units of kilobecquerels (kBq), multiply the above values by 37.

EXAMPLE: Zirconium-97 (10 uCi multiplied by 37 is equivalent to 370 kBq).

DEPARTMENT OF NUCLEAR SAFETY
NOTICE OF ADOPTED AMENDMENTS

Section 330. APPENDIX G. FINANCIAL SURETY ARRANGEMENTS (SECTION 330.250 (c)(1)(D))

- a) Surety Bond - If an applicant or licensee elects to satisfy the requirements of Section 330.250(c)(1) by filing a surety bond, that bond shall conform to the following requirements:
- 1) The surety company issuing the bond must, at a minimum, be among those listed as acceptable sureties or reinsurers on federal bonds in Circular 570 of the U.S. Department of Treasury, entitled "Surety Companies Acceptable On Federal Bonds", 52 Fed. Reg. 24601, revised as of July 1, 1987. A copy of this document is available for inspection at the Department of Nuclear Safety.
 - 2) The wording of the surety bond must contain the provisions specified in subsection (1) of Appendix H of this Part. Additional conditions may be agreed to between the applicant or licensee and the surety company so long as no requirement of this Part nor other required provision is avoided or altered.
 - 3) The surety bond guarantees that:
 - A) Funds will be available to perform reclaiming in accordance with 32 Ill. Adm. Code 340. Appendix C to assure health and safety from radiation hazards and other requirements of the license for the facility whenever required by the Department;
 - B) Surety waives notification of amendments to licenses, applicable laws, statutes, rules and regulations and agrees that no such amendment shall in any way alleviate its obligation on the bond; and
 - C) The licensee will provide alternate financial surety as specified in Section 330.250(c)(1) and obtain the Division Chief's written approval of the assurance provided within ninety (90) days of receipt by both the licensee and the Division Chief of a notice of cancellation of the bond from the surety.
 - 4) Under the terms of the bond the surety shall become liable on the bond obligation when the licensee fails to perform as guaranteed by the bond. Following a determination by the Division Chief that the licensee has failed to so perform.

DEPARTMENT OF NUCLEAR SAFETY

NOTICE OF ADOPTED AMENDMENTS

under the terms of the bond the surety shall perform reclaiming to the satisfaction of the State as guaranteed by the bond or shall forfeit the amount of the penal sum, as provided in Section 330.250(c)(1)(C).

- 5) The penal sum of the bond shall be in an amount at least adequate to provide the necessary financial surety;
- 6) Under the terms of the bond, the surety may cancel the bond by sending notice of cancellation by certified mail return receipt requested to the licensee and to the Division Chief. Cancellation shall not occur, however, during the 180 days beginning on the date of receipt of the notice of cancellation by both the licensee and the Division Chief, as evidenced by the return receipts;
- 7) The surety shall not be liable for the deficiency in the performance of reclaiming after the Division Chief has determined satisfactory reclaiming has occurred;
- 8) Licensee may terminate the bond by sending written notice to the surety, provided, however, that no such notice shall become effective until the surety receives written authorization from the Division Chief for the termination of the bond.

b) Personal Bond Supported by a Letter of Credit. If an applicant or licensee elects to satisfy the surety requirements of Section 330.250(c)(1) by filing his personal performance guarantee accompanied by collateral in the form of an irrevocable standby letter of credit, he must guarantee funds to perform reclaiming in accordance with 32 Ill. Adm. Code 340. Appendix C for protection of health and safety and other requirements of the licensee for the facility. In addition, the irrevocable standby letter of credit supporting this guarantee must conform to the following requirements:

- 1) The institution issuing the letter of credit must be an entity which has the authority to issue letters of credit and whose letter of credit operations are regulated and examined by a

no requirement of this Part nor required provision is avoided or altered;

- 3) The letter of credit must be accompanied by a letter from the licensee referring to the letter of credit by number, issuing institution and date and providing the following information: the radioactive material license number(s), name(s) and address(es) of the facility(ies) and the amount of funds for each license assured for reclaiming of the facility(ies) by the letter of credit;
- 4) The letter of credit must be irrevocable and issued for a period of at least one year. The letter of credit shall provide that the expiration date shall be automatically extended for a period of at least one year unless, at least 180 days before the current expiration date, the issuing institution notifies both the licensee and the Division Chief by certified mail of a decision not to extend the expiration date. Under the terms of a letter of credit, the 180 days will begin on the date when both the licensee and the Division Chief have received the notice, as evidenced by the return receipts;
- 5) The letter of credit must be issued in an amount at least adequate to provide the necessary financial surety; and
- 6) The Director may draw on the letter of credit upon forfeiture as provided in Section 330.250(c)(1)(C). The Director shall also draw on the letter of credit if the licensee does not establish alternate financial surety as specified in this Part and obtain written approval of such alternate assurance from the Division Chief within ninety (90) days after receipt by both the licensee and the Division Chief of a notice from the issuing institution that it has decided not to extend the letter of credit beyond the current expiration date. The Division Chief shall delay the drawing if the issuing institution grants an extension of the term of the credit. During the last thirty (30) days of any extension, the Director will draw on the letter of credit if the licensee has failed to provide alternate financial surety as specified in subsection 330.250(c)(1) and obtain written approval of such surety from

sufficient to perform reclaiming in accordance with 32 Ill. Adm. Code 340. Appendix C for protection of health and safety and other requirements of the licensee for the facility. In addition, the insurance policy supporting this guarantee must conform to the following requirements:

- 1) The insurer must be licensed to transact the business of insurance or be eligible to provide insurance as an excess or surplus lines insurer.
- 2) The insurance policy shall be accompanied by a certificate of insurance in which the wording contains the provisions specified in subsection (3) of Appendix H of this Part. Additional conditions may be agreed to between the applicant or licensee and the insurer so long as no requirement of this Part nor required provision is avoided or altered.
- 3) The insurance policy must be for a face amount at least adequate to provide the necessary financial surety. The term "face amount" means the total amount the insurer is obligated to pay under the policy. Actual payments by the insurer shall not change the face amount, although the insurer's future liability shall be lowered by the amount of the payments.
- 4) The insurance policy must guarantee that funds will be available for reclaiming the facility whenever reclaiming is necessary as determined by the Division Chief.
- 5) Upon forfeiture of financial surety as provided in Section 330.250(c)(1)(C), the Director shall direct the insurer to pay the full face amount to the State as specified in Section 330.250(c)(1)(C).
- 6) The licensee shall maintain the policy in full force and effect until license termination or substitution of alternate financial surety as specified in Section 330.250(c)(1). Failure to pay the premium without substitution of alternate financial surety as specified in Section 330.250(c)(1) shall constitute a violation of this Part. Such violation shall be considered to begin upon receipt by the Division Chief of a notice of future cancellation, termination, or failure to renew due to nonpayment of the premium, rather than upon the date of expiration.
- 7) The policy shall provide that the insurer shall not cancel, terminate or fail to renew the policy except for failure to pay

the premium. The automatic renewal of the policy must, at a minimum, provide the insured with the option of renewal at the face amount of the expiring policy. If there is a failure to pay the premium, the insurer may elect to cancel, terminate or fail to renew the policy by sending notice by certified mail to the licensee and the Division Chief. Cancellation, termination or failure to renew shall not occur, however, during the 180 days beginning with the date of receipt of the notice by both the Division Chief and the licensee, as evidenced by the return receipts. Cancellation, termination or failure to renew shall not occur and the policy shall remain in full force and effect in the event that on or before the date of expiration:

- A) The Division Chief considers the facility abandoned;
- B) The license is terminated or revoked or renewal is denied;
- C) Closure is ordered by the Director or a court of competent jurisdiction;
- D) The licensee is named as debtor in a voluntary or involuntary proceeding under Title 11, U.S. Code (Bankruptcy); or
- E) The premium due is paid.
- 8) Commencing on the date that liability to make payments pursuant to the policy accrues, the insurer will thereafter annually increase the face amount of the policy. Such increase must be equivalent to the face amount of the policy, less any payments made, multiplied by an amount equivalent to 85 percent of the most recent investment rate or of the equivalent coupon-issue yield announced by the U.S. Treasury for 26-week Treasury securities; and
- 9) Any provision of the policy inconsistent with any or all regulations in this Part will be deemed to be amended to eliminate such inconsistency.
- d) Personal Bond Supported by Securities. If an applicant or licensee elects to satisfy the surety requirements of Section 330.250(c)(1) by filing his personal performance guarantee accompanied by collateral in the form of securities, he must guarantee sufficient funds to perform reclaiming in accordance with 32 Ill. Adm. Code 340. Appendix C for protection of health and safety and other requirements of the

license(s) for the facility(ies). In addition, the securities supporting this guarantee must be fully registered as to principal and interest in such manner as to identify the State and the Department as holder of such collateral and also identifying that person filing such collateral. The securities shall be accompanied by a certificate whose wording contains the provisions specified in subsection (4) of Appendix H, identifying the State and the Department as holder of such collateral and to also identify that person filing such collateral. These securities must have a current market value at least adequate to provide the necessary financial surety and must be included among the following types:

- 1) Negotiable United States Treasury securities assigned irrevocably to the State; or
- 2) Negotiable general obligation municipal or corporate bonds which have at least an "A" rating by Moody's and/or Standard and Poor's rating services and which are assigned irrevocably to the State.

e) Personal Bond Supported by Certificate of Deposit. If an applicant or licensee elects to satisfy the surety requirements of Section 330.250(c)(1) by filing his personal performance guarantee accompanied by a Certificate of Deposit in an amount at least adequate to provide necessary financial surety, the irrevocable certificate of deposit supporting this guarantee must conform to the following requirements:

- 1) The institution issuing the certificate of deposit must be an entity which has the authority to issue certificates of deposit and whose certificate of deposit operations are regulated and examined by a Federal or State agency;
- 2) The certificate of deposit must be accompanied by a letter from the licensee referring to the certificate of deposit by number, issuing institution and date and providing the following information:

A) The radioactive material license number(s), name(s) and address(es) of the facility(ies) and the amount of funds assured for reclaiming of the facility(ies) by the certificate of deposit. Such certificate of deposit must also include a statement signed by an officer of the issuing financial institution which waives all rights of lien which the institution has or might have against the certificate;

B) This letter must contain the applicable provisions specified in subsection (5) of Appendix H of this Part. Additional provisions may be agreed to between the applicant or licensee and the issuing institution so long as no requirement of this Part or required provision is avoided or altered;

3) The certificate of deposit must be assigned irrevocably to the State and issued for a period of at least one year. The certificate of deposit must provide that the expiration date will be automatically extended for a period of at least one year unless, at least 180 days before the current expiration date, the issuing institution notifies both the licensee and the Division Chief by certified mail of a decision not to extend the expiration date. Under the terms of the certificate of deposit, the 180 days will begin on the date when both the licensee and the Division Chief have received the notice, as evidenced by the return receipts; and

4) The Director may draw on the certificate of deposit upon forfeiture as provided in Section 330.250(c)(1)(C). The Director will also draw on the certificate of deposit if the licensee does not establish alternate financial surety as specified in this Part and obtain written approval of such alternate assurance from the Division Chief within ninety (90) days after receipt by both the licensee and the Division Chief of a notice from the issuing institution that it has decided not to extend the certificate of deposit beyond the current expiration date. The Director may delay the drawing if the issuing institution grants an extension of the term of the certificate of deposit. During the last thirty (30) days of any such extension, the Director will draw on the certificate of deposit if the licensee has failed to provide alternate financial surety as specified in this Part and obtain written approval of such surety from the Division Chief.

for brachytherapy, either the total dose or the total source strength and exposure time, as documented in the written directive.

"Recordable event" means the administration of:

radioactive material or radiation therefrom without a written directive by a procedure listed in the definition of the term "written directive";

radioactive material or radiation therefrom pursuant to a written directive without daily recording the administered radiation dose or radiopharmaceutical dosage;

The Sections Affected Index lists, by Title, each Section of a codified Part on which rulemaking activity has occurred in this volume of the Register and is divided into two parts: the first lists the Sections on which rulemaking activity occurred in the previous issues of this volume year; the second lists the Sections on which rulemaking activity occurred in this issue of the Register. (The headings at the top of each page indicate the two parts: the first part shows the previous issue numbers inclusively and the date of the last published issue; the second lists the current issue number and date.) The columns in both parts indicate the type of rulemaking activity and the action taken along with the page number on which the first page of the notice of rulemaking activity appeared. If a Section on which action is being taken in the current volume (calendar year) of the Register was proposed in a previous volume, the last two digits of the previous volume's year appear immediately after the page number separated by a slash, (e.g. 1 Ill. Adm. Code 100.280 was proposed last year and adopted this year. The action entry reads: (P-8577/89; A-724). The codes for both columns are listed below. For a complete listing of the Titles of the Illinois Administrative Code, please refer to 1 Ill. Adm. Code 100.140 or contact the Administrative Code Division.
